PRE-BUDGET REPORT: REVISION TO THE DMO REMIT 2002-03

The latest projections for the public finances have been published in the Chancellor's Pre-Budget Report (PBR). The forecast of the CGNCR for 2002-03 has increased by £5.2 billion to £18.7 billion¹. The net financing requirement has increased by £5.0 billion² to £37.1 billion. The DMO plans to meet the additional financing requirement by:

- an increase of £3.8 billion in planned gilt sales and
- an increased run-down of £1.2 billion in the DMO's net short-term cash position.

A revised financing table is published below along with the latest projections of future CGNCRs.

Changes to planned gilt sales

Planned gilt sales are being increased by £3.8 billion to £26.2 billion, this is being achieved by:

- adding a further short conventional gilt auction: planned short gilt sales are being increased by £3.0 billion to £8.5 billion.
- increasing planned long conventional gilt sales by £0.8 billion to £7.7 billion. (See the separate announcement about the details of the auction of 5% Treasury Stock 2025 on 3 December.)
- the additional gilt auction will be held on Wednesday 15 January 2003.

Gilt auction calendar

The details of the stocks to be auctioned in the final quarter of the current financial year will be the subject of consultation with gilts market participants on 9 December and will be announced by the DMO at 3.30pm on Friday 20 December. Following today's announcement the gilt auction calendar for the remainder of the current financial year is:

| Date | Stock |
|-----------------------------|---------------------------------|
| Tuesday 3 December 2002 | 5% 2025 (£2.75 billion nominal) |
| Wednesday 15 January 2003 | Conventional |
| Wednesday 22 January 2003 | Index-linked |
| Wednesday 26 February 2003* | Conventional |
| Wednesday 26 March 2003* | Conventional |

^{*}Date subject to confirmation following the Chancellor's decision on the Budgetary timetable

¹ All figures are cash unless otherwise stated.

² Secondary market net gilt purchases of £0.3 billion and a reduction of £0.5 billion in NS&I's expected de-financing have impacted on the net financing requirement.

Changes to planned levels of short-term debt

- The planned run-down of the DMO's net short-term cash position is being increased by £1.2 billion to £6.6 billion, taking the planned outstanding level to £4.4 billion at the end of March 2003.
- There is no change to the planned level of Treasury bill sales in 2002-03; the planned end-March 2003 level of Treasury bill stocks remains at £14.0 billion.
