Your engagement index

66%

Difference from previous survey	Difference from CS2010	Difference from CS High Performers
+2	+9 ♦	+4

See the appendix for further details

The three elements of engagement and their component questions are:		Difference from previous	Difference from
Say: speaks positively of the organisation	% Positive	survey	CS2010
B50. I am proud when I tell others I am part of the DMO	75%	+11	+20 ♦
B51. I would recommend the DMO as a great place to work	64%	+16	+23 ♦
Stay: emotionally attached and committed to the organisation			
B52. I feel a strong personal attachment to the DMO	58%	+5	+12 ♦
Strive: motivated to do the best for the organisation			
B53. The DMO inspires me to do the best in my job	57%	+4	+18 ♦
B54. The DMO motivates me to help it achieve its objectives	58%	+13	+22 ♦

Drivers of engagement

Employee engagement is shaped by experiences at work, as measured by nine themes in the survey. The table below shows how you performed on each of these themes, ranked by the strength of association with engagement. The themes which have the strongest association with engagement should be the focus for action. See the appendix for further details.

	Strength of association with engagement ¹	Theme score % positive	Difference from previous survey	Difference from CS2010	Difference from CS High Performers
Leadership and managing change	.000	54%	+2	+16 ♦	+7 ♦
My work	.00	69%	0	-2	-6 ♦
My line manager		59%	+10	-6 ♦	-9 ♦
Learning and development		47%	-3	+4	-2
Inclusion and fair treatment	.000	75%	+8	+2	-1
Organisational objectives and purpose	.000	84%	-5	+3	-3
Pay and benefits	.000	27%	-5	-10 ♦	-16 ♦
Resources and workload	.000	68%	+7	-5 ♦	-9 💠
My team	.000	73%	+10	-4 ♦	-8 ♦

¹The table above shows the strength of association between engagement and the themes for HM Treasury (Corporate Report)

Top three key driver themes in more detail

The three themes which have the strongest association with engagement are shown below. Questions are ranked by difference from the Civil Service 2010 benchmark (CS2010).

indicates a variation in question wording from your previous survey indicates statistically significant difference from comparison	% Positive	Diff. from previous survey	Diff. from CS2010
Leadership and managing change Strength of	association	with engagemer	nt: 000
B42. I believe the actions of senior managers are consistent with the DMO's values	64%	-1	+25 ♦
B44. Overall, I have confidence in the decisions made by the DMO's senior managers	59%	0	+23 ♦
B46. When changes are made in the DMO they are usually for the better	46%	+6	+23 ♦
B41. Senior managers in the DMO are sufficiently visible	65%	-7	+20 ♦
B40. I feel that the DMO as a whole is managed well	61%	0	+20 ♦

Appendix

Glossary of key terms

J. J	- J
% positive	The proportion who selected either "agree" or "strongly agree" for a question (or all questions within a theme in the case of Theme score % positive).
Previous survey	Comparisons to the previous survey relate to the results from the 2009 Civil Service People Survey. Where a question is flagged as changed since the last survey comparisons should be treated with caution as changes to wording may affect how people respond to the question.
CS2010	The CS2010 benchmark is the median percent positive across all organisations that participated in the 2010 Civil Service People Survey.
CS High Performers	For each question, this is the upper quartile score across all organisations that have taken part in the 2010 Civil Service People Survey.

Rounding

Results are presented as whole numbers for ease of reading, with rounding performed at the last stage of calculation for maximum accuracy.

Statistical significance: ♦

Statistical testing has been carried out on the comparisons between this year's results and your previous survey, CS2010 results and CS High Performers results to identify differences that are statistically significant. You can therefore be confident that the difference represents a real difference in opinion between the results.

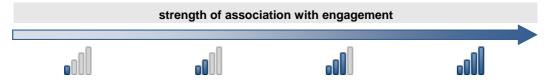

The employee engagement index

The survey includes five questions that make up the engagement index (B50-B54). The index score represents the average level of engagement in that unit and ranges from 0 to 100. An index score of 0 represents all respondents in that unit saying they strongly disagree to all five engagement questions and a score of 100 represents all respondents saying they strongly agree to all five engagement questions.

The drivers of engagement

While the engagement index shows the average level of engagement, it does not show what you can do to improve engagement. Nine themes have been included in the survey to measure employees' experiences at work. A statistical technique, stepwise regression, is used to identify the extent to which each of these themes has an association with engagement. The themes identified as having an association are called the 'Drivers of engagement'.

The strength of association with engagement varies by theme and is illustrated by a 4-bar icon, as shown below. Themes with a full 4-bar icon have the strongest association with engagement.

the analysis has not identified a significant association with engagement

Confidentiality

This survey was carried out as part of the 2010 Civil Service People Survey, which is managed by the Cabinet Office on behalf of all the participating organisations. The Cabinet Office commissioned ORC International to carry out the survey. ORC International is a member of the Market Research Society, and is bound by their strict code of conduct and confidentiality rules. These rules do not allow for the breakdown of results to the extent where the anonymity of individuals may be compromised. Groups of less than 10 respondents will not be reported on, however their responses do contribute to the overall scores for the unit and organisation they belong to and the overall Civil Service results.
