## **PRESS NOTICE**

### **RE-OPENING BY SYNDICATED OFFERING OF 0¼% INDEX-LINKED TREASURY GILT 2052 IN THE WEEK COMMENCING 25 FEBRUARY 2013**

The United Kingdom Debt Management Office ("the DMO") announces that the next syndicated offering will be a re-opening of 0¼% Index-linked Treasury Gilt 2052. Subject to market conditions, it is expected that the offer will take place in the week commencing 25 February 2013. This will be the final syndicated offering of the 2012-13 syndication programme.

Further information about the conduct of the offer, including the composition of the syndicate, will be announced in due course.

### **NOTES TO EDITORS**

The DMO financing remit for 2012-13, published alongside the Budget on 21 March 2012, included the provision for a programme of up to eight syndicated offerings to be held in 2012-13 aiming to raise £33.5 billion. The planning assumption is that two syndicated offerings will be held in each quarter of the financial year.

The DMO also announced on 21 March 2012 that it intended to implement the syndication programme on a broadly even-flow basis throughout the year, in a similar way to 2011-12. The DMO may, however, continue to vary the size of each syndicated offering to take account of market and demand conditions at the time of each transaction - such discretion will be limited to around £1.0 billion (cash) above or below the prevailing required average operation size.

The size of the syndication programme was reduced to £32.5 billion at the financing remit revision which coincided with the publication of the outturn of the Central Government Net Cash Requirement in 2011-12 on 24 April 2012. However, following the larger than anticipated syndicated offer of 0¾% Index-linked Treasury Gilt 2062 on 29 May 2012, the size of the

programme was increased by £0.5 billion to £33.0 billion (and the size of the mini-tender programme was reduced by the same amount to £6.5 billion).

At the Autumn Statement 2012 on 5 December, £0.75 billion of sales of long conventional gilts by syndication was switched to the long conventional auction programme, reducing the overall size of the syndication programme to £32.25 billion. Following the syndicated re-opening of 3¼% Treasury Gilt 2044 on 29 January, the size of the long syndication programme was increased by £0.3 billion, taking the overall size of the syndication programme to £32.55 billion. The size of the mini-tender programme was reduced accordingly to £6.0 billion.

The results of the seven syndicated offerings held in the financial year to-date, which together have raised £28.8 billion, are summarised in the table below.

Date	Gilt	Size (£mn)	Issue Price (£)	Issue Yield (%)	Proceeds (£mn cash)

On 14 December 2012 the DMO announced that it planned to hold two syndicated offerings in the final quarter of the financial year, as follows:

- Second half of January: 3¼% Treasury Gilt 2044.
- Second half of February: an Index-linked Gilt.
