- Note:**
1. For tenders conducted on a single price basis, there is no tail and the prices and yields are based on the strike price. For index-linked gilts with a 3-month indexation lag, the clean price shown is the real clean price i.e. it is the price excluding any inflation uplift. Tail figures for tenders conducted on a multiple price basis have been calculated from unrounded yields.
 2. For conventional gilts the yield shown is a nominal yield, while for index-linked gilts it is a real yield. For index-linked gilts with an 8-month indexation lag the yield is computed using a 3% inflation assumption, while for index-linked gilts with a 3-month indexation lag the yield does not depend on an inflation assumption.
 3. N/A in the tail column indicates that the tender was conducted on a single price basis.
